YUGOSLAVIA BREAK GERMAN FRONT

R.A.F. BATTERS BOMBERS

Great Fires Started in Centre of Capital By Britain's Bombers

Today's War Moves

By J. W. T. MASON
British United Press War Report
MUCH more difficult military problems for the Germans in the immediate future than they have encountered in Yugoslavia are indicated by reports from Athens that the Greek army continues intact and most of the Greek forces in the Struma valley and eastern Greece have escaped. Hitler's basic aim in southeastern Europe still is the subjugation of Greece to relieve the Italians in Albania, but his quick thrust into Salonika does not yet mean he is well on his way to victory.

EXCLUSIVE

expected to be different from Yugoslavia's disrupted military strategy which gave the Nazis their chance for a break through.

The fact that the British expeditionary force in Greece continues to dig going into action indicates co-ordination with the Greek army proceeding for a unified stand. The Greek defense west of the Salonic and Vardar area cover a line far shorter than the front in

GEN. O'CONNOR IS MISSING IN NORTH AFRICA

Two Other Generals Are Unreported—Germans Claim Six Captured

LONDON, April 10.—(CP)—The war office announced today that the names of three British generals whose whereabouts in Libya are unreported in Sir Nuriel O'Connor, an outstanding tactician.

The two other general officers missing are Lt.-Gen. P. N. Munn, V.C., and Maj.-Gen. D. M. Gubbins, P.C.

CLAIM 2,000 TAKEN
The Germans claimed six general officers and 2,000 men had been captured at El Mech, 50 miles southwest of Derina, by German-Italian forces in a broadcast.

Gen. Sir Malles Wilson, as the two men reported under Gen. Sir Archibald Wavell, for carrying out

Great Fires Started in Centre of Capital By Britain's Bombers

Famous State Opera House, Prussian State Library, Hohenzollern Palace On Under der Linden Area Bombed

LONDON, April 10.—(BUP)—British bombing planes roared over Berlin for three hours during the night and dropped powerful high explosives in the centre of the city.

The Air Ministry revealed that the city's most important and largest bombing planes were employed. Huge four-motored Consolidated bombers built in the United States, which have tremendous bomb-carrying capacities, were delivered recently.

Last night's raiders also used Britain's new type high explosive bombs said to be many times more powerful than the old.

Berlin was attacked last night by the aircraft bomber command, the ministry's communique said. "The attack lasted nearly three hours. Large fires were started in the centre of the city where powerful high explosive bombs had been seen to explode."

EXCLUSIVE

Greenland Placed Under United States Protection By President Roosevelt

By LYLE C. WILSON
WASHINGTON, April 10.—(BUP)—President Roosevelt today extended American protection to Greenland under an agreement with Denmark giving the nation the right to establish air bases and other fortifications on the vast island.

In an agreement signed yesterday with the Danish minister in Washington, Mr. Roosevelt promised that no foreign power can impair its sovereignty on Greenland and that Greenland will remain a Danish colony. The White House said that after receiving reports that German airplanes have been flying over the vast ice-covered island.

Under the agreement, the United States proposes to make certain that the island will remain under the protection of the United States during the period in which Denmark is under Nazi domination.

EXCLUSIVE
"Canadian military quarters in the past have regarded Greenland as a possible enemy springboard for an aerial attack on Canada."

Speaking for the President, White House secretary Stephen T. Early

POLICE PROBING FATAL SHOOTING, TRY AT SUICIDE

R.C.M.P. are investigating the death of a 16-year-old youth, who had his head blown off by a shot gun, when he attempted suicide of an elderly man in the St. Paul district, 120 miles northeast of Edmonton Wednesday.

John Krizan, 16, is dead after a bullet struck him in the head, and his brother Andrew was playing with the gun, when he was shot. The boy's father, Mr. J. Krizan, said that the boy was suffering from a mental illness, and was being treated by a doctor in Regina, Sask.

Mr. Krizan said that the boy was suffering from a mental illness, and was being treated by a doctor in Regina, Sask.

ANTHONY EDEN, GENERAL DILL RETURN HOME

Army Chiefs Expected To Start Consultations With Churchill

By WALLACE CARROLL
LONDON, April 10.—(BUP)—Winston Churchill, British prime minister, today announced that Anthony Eden, foreign secretary, and General Dill, chief of the Imperial general staff, Gen. Sir John G. Dill, chief of the British Expeditionary Force, and the British Chiefs of Staff, who had been in the Balkans, returned to London today.

It was expected that they would go into immediate consultation with Prime Minister Winston Churchill. Subject of the conferences would probably be the German threats in Africa and to Yugoslavia and Greece where a powerful British expeditionary force awaits a clash with the German Panzer divisions which have advanced from Salonika to the Albanian-Greek border.

EXCLUSIVE
The news from both fronts with at least serious.

There has been no word yet of contacts between the German troops pouring south into Greece and the British on their defensive line running northwards from the Gulf of Salonika to the Albanian-Greek border.

F.D.R. SEEKING POWER TO TAKE OVER VESSELS

Authority Sought To Be Subject To Payment Of Compensation

WASHINGTON, April 10.—(AP)—President Roosevelt asked the U.S. Congress today for broad statutory authority to take over any "hostile" vessels lying idle in our ports.

This authority, he said, in a message to the Congress, should be subject to the payment of just compensation.

Although the President had asserted Tuesday he would recommend no such authority, the purchase of charter of 39 Danish vessels which have been taken into custody, the language of his message today was not limited to the Danish ships.

CITES PROVISION
The President cited a provision of the merchant marine act of 1920 which authorizes him to requisition.

"Havoc" In Raids

LONDON, April 10.—(CP)—The ministry of information announced today that the United States-built "Havoc" bombers, known as the "Havoc", were among the fighter planes, taking part in last night's operation.

Pulls No Punches

The eagerly awaited series of dispatches by John T. Whitaker—"The Truth About Italy"—has at last reached North America after many delays imposed by the Nazi control of communications in regions beyond the borders of Germany and Italy.

The series, which starts Wednesday, April 16, will be EXCLUSIVE IN ALBERTA in The Edmonton Bulletin.

In these dispatches, written "beyond the Italian front", and with no punches pulled because the Chicago Daily News foreign service has decided not to maintain a correspondent in Italy until that country's censorship policies have been drastically modified, Whitaker reveals the startling extent to which Mussolini has become Hitler's prisoner.

The dispatches show, with vivid illustrations, how complete is the political, economic and moral collapse of Fascist Italy, and how to prevent Italy from negotiating a separate peace, the Germans have taken over control of the government, the armed forces, the industry and the agriculture of Italy. As a result of his expulsion and the Daily News foreign service decision to sever all relations with Italy, Whitaker is the first American correspondent to be able to tell the whole story about Italy.

King And Queen Visit Canadian Troops

Deeply interested were the King and Queen when they visited units of Canadian soldiers training in England, and their majesties spent a very busy day with the Dominion's troops. The King went for a rough and uncutted ride in one of the Ben gun carriers used by the Royal Canadian Mounted Police, and he is shown, top, climbing from the machine with Major Gen. Victor Odlum, who accompanied him. In the picture below, the majesty is reviewing troops of a central Ontario regiment drawn up for her inspection. Maj.-Gen. Odlum is acting as guide for the Royal visit.

Sting Taken From Salonika Loss By Disclosure Greeks Intended Making No Defence

By HENRY T. GORRELL
ATHENS, April 10.—(BUP)—The sting was taken from the German capture of Salonika today by the disclosure that Greek soldiers and civilians safely had evacuated the city and most of eastern Macedonia ahead of the Germans, taking what they could carry and destroying what they couldn't.

No serious plan had been made for defending the 300-mile strip of eastern Macedonia and western Thrace, because it was realized that the Germans would shut their fall back in air attack, cutting the territory off from the rest of the country, a Greek spokesman said.

The plan was to put up a token resistance, such as those such as those who were attacking the Rumanian ports and evacuate the

Strike Continues At Coleman Mine

COLEMAN, April 10.—(CP)—The strike of more than 800 coal miners at the Coleman mine, known as the "Havoc", was among the fighter planes, taking part in last night's operation.

Japan Predicts U.S. To Increase Aid To China

TOKYO, April 10.—(CP)—The vice foreign minister of Japan predicted today that the United States will increase its aid to China.

He says Japan must meet this situation with patience and determination.

The Japanese minister also reports that negotiations between Russia and Japan are as yet progressing unsatisfactorily. He believes a trade pact between the two countries will be signed soon.

According to the vice foreign minister, Japan's armed forces made the Pacific.

Stage Is Now Set For German-British Battle In Balkans

British Line Extends From Point South Of Salonika To Albanian Port Of Chimara On Adriatic Coast

LONDON, April 10.—(CP)—The Yugoslav army is making a "supreme effort" to break the German front, the Yugoslav league said today. The spokesman declined to give further details, such as the direction of the Yugoslav drive.

BERNE, Switzerland, April 10.—(AP)—A German offensive that cut Greece in two and virtually isolated Yugoslavia set the stage today for a decisive battle between the Nazi military machine and Britain's Balkan expeditionary force.

With eastern Thrace and northern Macedonia engulfed in Hitler's drive to the east, the British forces were reported completing a new defence line stretching across the Greek peninsula from a point south of Salonika to the Albanian port of Chimara on the Adriatic sea.

GREECE ARMY STILL INTACT SAY LEADERS

Plan To Deal Invaders Decisive Blow With Allied Support

ATHENS, April 10.—(AP)—The Greek army remains intact. It is a decisive blow to the German invader with allied support.

"The main Greek army will strike at the right time and the right place," the military spokesman declared.

Will Repeat Battle

The battle for Greek independence, first won on Mount Parnassus, where the British, American and Canadian forces fought a decisive battle, will be repeated again on Greek mountains, where centuries invaders have been stopped.

German troops carrying motor vehicles were "systematically made" by British bombers and fighters in the Kikila and Polycarion areas north of Salonika, a Royal Air Force communique said, although bad weather conditions interfered with air operations.

EXCLUSIVE

Retreat Foreseen

An Athens broadcast last night declared "the possibility of a Yugoslav retreat (expanding the Greek left).

Routes Outside B.C. Studied For Alaska Highway

OTTAWA, April 10.—(CP)—Despite other major activities caused by the war, development of a highway to Alaska by Canada and the United States remains a matter of interest in Washington. Hon. Charles Stewart, minister of the Canadian section of the Alaska road commission, said today.

Mr. Stewart and other Canadian commissioners recently visited the United States capital for discussion of reports on the feasibility of various routes. He anticipated that the final report by the Canadian section of the Alaska road commission would be made this summer.

The appointment of United States commissioners to Congress

War Services Fund
TORONTO, April 10.—(CP)—National campaign headquarters announced today that contributions to the Canadian War Services Fund registered so far total \$2,525,574. The goal is \$5,000,000.

Tightening Up

Non J. J. Haley has heard that some concerns are "plowing back" more profits than they should or, generally, preferring to spend the money fixing up their premises unnecessarily rather than hand it over as excess profits and income taxes. Regulations are in the making to stop the practice, and they are to be made retroactive with the result that excess spending last year will not count in lieu of taxpaying.

Any who may be caught in the net will naturally not get much sympathy from humbler taxpayers. When people of means are being urged to save every dollar they can and put it into war funds and measures are being proposed to make them do so, they will expect to demand that the rule apply all around. The new regulations, it is to be supposed, will be framed with reasonable regard to the maintenance of property and extensions or improvements actually required. Beyond that, the first and last consideration is that the country needs the money.

Saved For Service

President Roosevelt will ask Congress to buy the Danish ships which were taken to protective custody in United States ports. The disposition of German and Italian ships seized in those ports is still under consideration. In Mexico City, President Cárdenas issued a decree expatriating German and Italian ships commandeered in German ports and announced that they would be put to service. One way or another the Axis ships seized in United States ports will undoubtedly also be put to service. The destination is in prospect for the Axis ships which were saved from sabotage in ports in Central and South America.

All told these timely seizures have kept in being a half million tons or more of shipping, which the world needs. In ordering their destruction, the United States government claimed that the ships were no longer of value to them; and therefore waived any moral claim to their possession. Protest as they may in the name of the international law they have treated with contempt wherever it conflicted with their scheme, these powers voluntarily divested themselves of any right to say what shall be done with the vessels.

A detailed ship belongs to whoever came to tow it into port. The United States Italian ships were officially classed as derelicts, and Mexico has taken the right course in assuming ownership of those it rescued from destruction. It is plain to see for the purposes of commerce.

Invasion—When?

The Red Star, official publication of the Soviet army, says the danger of an invasion of Britain has passed, that the "centre" of the war has shifted from the western to the new eastern front, and that the Axis is too deeply involved there to spare men and materials for the attempted undertaking of invading the island kingdom.

This may be, but it is to be noted that the British authorities are not banking on the proposition. British troops are being supplied with new, revised and enlarged pamphlets, telling them what to do and what to not do if an invasion is attempted. From what can be ascertained that the defense army built up in Britain is not being dangerously weakened by the sending of troops or supplies to the Mediterranean.

When all is said, however severe the fighting may become in the Balkans that is not the area in which the western front can be reached. To win, Hitler must conquer Britain—and he knows it. While it stands, victories elsewhere will be of no master of the world, nor even of Europe. His position is that of a holder of ill-gotten gains who has yet to reckon with the force of the law, and who cannot avoid the return of the law, however long he may try to postpone it.

Even to help the people in the Balkans who are fighting to preserve their liberties, Britain dare not dangerously deplete its own defenses. For them, for all the captive nations in Europe, and for the world, it is that Britain remain an invulnerable fortress against which even the later Axis must shatter its armies.

Round One

The news from the Balkans is bad. That cannot be denied, and there is no point in arguing with the facts. The enemy has won the first round. At the end of four days fighting he had captured Salonika, and the Greek-Yugoslav front at the contact point waited halfheartedly across Serbia. Salonia is a great key position, and its capture is a blow, but it gives him a base on the Aegean. If he drives into Yugoslavia he can push that country may be cut in two, and Nazi troops make junction with the Italian forces in Albania.

But, though bad, the news cannot be altogether surprising. It was to be expected. It had spent the winter months and equipment in the Balkans. The Allies could do nothing but wait for the Greek requirements. Neither the Yugoslav nor the Greek commands knew to a certainty that their country would be attacked until German elements moved against their borders on Sunday. British assistance was delayed, at least for a time, and there is a chance that the projected drive would not succeed. With these preparatory advantages, it would have been remarkable if the Axis

From The News

By Harold L. Weir

The war news from Europe is unpleasant. But it is no more unpleasant than we have been anticipating ever since the Balkan campaign joined a second major battlefront. No one in his right sense expected that either Yugoslavia or Greece could hold back the German mechanized tide. As a matter of fact, these two nations, particularly the Greeks, have done honorably better than anyone thought they would do.

The Germans have the momentum. As compared to the Greeks they are completely fresh and unweary. Moreover, they are driven by the fury of Hitler who is enraged at the British to have a heavy cost, what he thought he could obtain by threats.

The point is this: For several weeks the British have strained every diplomatic nerve to trap the Nazis into a second battlefront. We've got what we wanted. It is utterly stupid to be dismayed at the military consequences of our diplomatic victory.

It is in very nature, the Balkan campaign must have followed the course it is taking today. It is to be expected that temporary sacrifices are essential. The benefits to be derived from this situation are necessarily long-range benefits.

Indeed, without these temporary setbacks, it would be impossible for the allied strategy to fully develop. That does not mean that Britain has deliberately abandoned her allies for the sake of life and territory. It simply means that smaller considerations are being voluntarily sacrificed to larger inclusive considerations.

Even with the whole of the Balkan campaign must have followed the course it is taking today. It is to be expected that temporary sacrifices are essential. The benefits to be derived from this situation are necessarily long-range benefits.

Side Glances

By Galbraith

"Why is it that when you're young and slim enough for a gown like that you can't afford it, and by the time you can afford it, you're no longer slim?"

Blind the other driver. Also, as drivers are aware, eyes differ in sensitivity.

There is a natural tendency on the part of the driver to wait until the light of the approaching car begins to show, before dimming his own lights. If, on the contrary, the act of dimming were regarded as a signal, the difference in light and drivers eyes would be allowed to suggest that drivers might regard the dimming of lights as an approach to a collision.

My own experience has been that at least 90 per cent of all drivers do dim their lights, but that many do not do so in time to avoid blinding the other driver. If the driver does not dim his lights, that means he is not dimming his own lights. If, on the contrary, the act of dimming were regarded as a signal, the difference in light and drivers eyes would be allowed to suggest that drivers might regard the dimming of lights as an approach to a collision.

There is a natural tendency on the part of the driver to wait until the light of the approaching car begins to show, before dimming his own lights. On The Record

By Dorothy Thompson

Peace Aims Should Be Discussed
This war is a new chapter in the history of the United States. Making America a "neutral for democracy" is not only a popular slogan, it is a reality. The administration faces the fact that it is going to make the mistake of its life. Rather, it should face the fact and ask the reason.

This country is as anti-Nazi as any other in the world. It is not changed. An overwhelming majority of the people want the British to win. The British are the only ones who are not being pushed towards war, and unlike this country, a vigorous and able administration.

There is a natural tendency on the part of the driver to wait until the light of the approaching car begins to show, before dimming his own lights. What Is Your Opinion?

By Galbraith

The story of creation was told in ten words. If you have a bigger subject you are welcome to more space.

Editor, Bulletin: To help save guard convoys and men who accompany them, God bless them, couldn't they build some sort of airplane carrier, each carrying two planes and enough fuel to refuel the planes during the crossing, and have about four such boats attached to each convoy?

The planes, equipped with radio could, during the day, cruise around and give alarm if boats or submarines were sighted.

A. P.

There is a natural tendency on the part of the driver to wait until the light of the approaching car begins to show, before dimming his own lights. If, on the contrary, the act of dimming were regarded as a signal, the difference in light and drivers eyes would be allowed to suggest that drivers might regard the dimming of lights as an approach to a collision.

New Roman Testament

By Barrett McGurn in the New York Herald Tribune

A new version of the New Testament, the result of a long and arduous task, was announced at the end of May by the Catholic Bishops of the United States.

The product of five years of labor by a committee of experts, the new version is a translation of the Bible into English, based on the latest scholarship and the most accurate text available.

The new version is a translation of the Bible into English, based on the latest scholarship and the most accurate text available. It is a work of great importance, and one that will be read by millions of people.

"THE SEVEN LAST WORDS FROM THE CROSS"

V. J. Thurst—St. John 19:28

By Reverend S. A. Carlson,
B.A., B.D.

Minister, British Baptist Church

THE cry from the twenty-second Psalm has just died away when the words "I thirst" are heard from Jesus' suffering lips. The prevalence of the merely human aspect of suffering indicates that the other and more terrible aspect of sin-bearing and God-forsakenness was past. Therefore, the agony of the beginning, if not of Victory, yet of Rest, at the end of a fierce struggle. St. John who alone records this utterance, has prefaced it by a direct statement, that Jesus as surrendered Himself to human feeling and thus sought nobly relief by expressing His thirst. "Knowing that all things were now finished, that the Scriptures might be fulfilled." He knew that all the Scriptural predictions of His suffering were completed, now He can and does yield Himself to the mere physical wants of His body.

In response to the cry "I thirst" He was offered slight refreshment in the form of the soldier's sour wine by means of a sponge on a reed. By accepting this physical refreshment offered Him, the Lord once more indicated the completion of the work of His Passion. He did not accept a narcotized wine, but would still His senses and physical consciousness but refreshment that for the moment, revive His physical balance needed for thought and word. And as He immediately passed on to "last death for every man."

Third following offering suffering is natural and thus reminds us that the Lord Jesus Christ, though "God Incarnate" shared our human nature. This need and desire had a physical cause and was accompanied by physical pain. He is part of the human race, hence in a position to know our trials and bear our infirmities.

By these words we realize His extreme humiliation on the Cross. We remember that Jesus was Lord of the universe who could feed multitudes with bread, and could supply a banquet with wine, but here he acknowledged himself as the prisoner of His enemies and persecutors. Christ not only condescended to die, but He accepted death in a form and with accompanying circumstances which rendered it something more than death. His pain of body, anguish of soul, the agonizing crucifixion, attending His death were all foreseen and accepted. We may look upon this voluntary endurance of Christ as a means of satisfying the deep thirst of our immortal spirit.

This cry should also be considered a call to service. He taught us to identify His pain with Himself. Love for Him will manifest itself in service following Christ in imitation of His "little ones." Some want supplied some suffering alleviated some we comfort. Those who for Christ make this minister to the thinking, the ready, the friends, are justified in deeming themselves, so far, ministers to Christ Himself. And they may know that the "cup of cold water" given in this spirit shall be appreciated by Him. The Divine thirst can only be quenched by sacrificial service to those for whom He was atoned.

Alberta District News In Brief

CURLERS BRING SEASON'S END WITH BANQUET

Reg Deer curlers climaxed a splendid season recently with their annual banquet in the United Church.

The supper was held in connection with the annual president versus vice-president curling match and the local, Vice-President Hugh Lee and his team, entertained President A. R. Little and his slayers. The following officers were elected for 1941-42: Honorary president, R. L. Little, president, R. B. Blades, first vice-president, O. Stranne, second vice-president, F. A. Stewart, secretary-treasurer, J. C. Knight, club chaplain, Rev. H. R. Day, executive, A. Lundin, J. McRobbie and W. W. Overland, trustees: Hugh McLevin, H. E. Macpherson and N. M. Barrell, auditors, J. Culbertson and J. C. Knight.

In giving his annual report President Little reviewed an active season. The annual Central Alberta banquet at Red Deer had been a great success, with a record entry and the club had also staged a one-day "Club" curlers had staged a number of other bonanzas and had carried off some of the prizes.

BETTY WAS LOST BUT UNWORRIED

Little Betty lost herself when she went on a holiday to Edmonton last week, with her mother, Mrs. J. N. C. Byers, of Rimbey. Betty Lou was at the home of her aunt while her mother went shopping. After a bit Betty grew tired of playing and decided to go down town to find her mother.

She wandered around for nearly two hours before a nice man with curly buttons on his suit asked her where she was going. The Police man was one of Edmonton's policemen and when he took her to headquarters a call had just come in from the worried relatives.

In answer to the query "Have you seen anything of a little four-year-old girl with blonde curls?" She

"Free Spain"

The Spanish civil war has been over two years, but loyalists are still fighting bitterly "intolerance and bigotry" according to the label de Valencia above, who announced common formation of "Free Spanish" force similar to de Gaulle's Free French. The former Spanish minister to Sweden and Finland, now a loyalist refugee, recently arrived in New York from Mexico City.

is wearing a gray blue cape lined with red plaid, back came the answer. "There is a young lady of that description here but her cape is bright red plaid-lined with navy blue." "It turned out that the cape in question was reversible."

Betty was not lost but frightened and had not resented to see her mother. She had been frightened. He only comment was "I saw the big red cars with the white running fast down the road." Her "daddy," who was Rimbey's physician and surgeon for ten years, is now serving as Captain with the Eighth Field Ambulance, Corps overseas.

BENTON STATION

Farewell Party Fetes Railman

Honoring Mr. and Mrs. J. R. Richardson recently, a farewell party was held at Alaska by members of the Maintenance-of-Way Union of the C.N.R.

Mr. Richardson left shortly from the B. and R. department. The couple were presented with a silver tea set by E. Allridge, of Oyen.

BIBLE SOCIETY CONVENES FOR LARGEST MEET

Largest and most successful convention ever held at the Prairie Bible Institute closed here this week after a long period of meetings with delegates from Idaho, Alaska, Yukon and Winnipeg. Special speakers were Rev. W. H. Williams, of the African Kenya colony, Rev. B. Jamieson from India, Rev. E. Gilman of the World-Wide Church, Toronto, Rev. Hugo Spier of the Western Canadian Mission, to the Jews, Winnipeg; and Benjamin Wilson, Toronto.

Three meetings were held each day with an average of 2,000 people at each meeting. At one meeting 62 graduate missionaries were present. The mission collection at the meeting totalled \$14,000. Over 3,000 meals were served each day. The convention was held in the new building at Warm Springs, which was planned for this purpose.

A large program for extending and building additions to various buildings was planned for this purpose. Among this were boys and girls from all walks of life.

Gleaned From Rural News

RED DEER.—Contracts have been let for a new parish hall to be built here by St. Luke's Anglican church. The new hall will be used for general church purposes and will be equipped with a modern kitchen. It is a one-storey building.

RIMBEY.—Miss Olive Tronnie, Miss Fernie, Miss Mary Bentley, plan to leave shortly for Vermilion Crossing to operate a season during the summer months. Kay, Dorcas, of the post office staff at Rimbey, is spending the summer months in Edmonton with her parents at two Hills. Miss Mildred Macpherson, of the Rimbey branch of the Bank of Montreal, is spending the summer months at a cottage at Lake Louise.

PIREBORO.—Farmer Wiegell, of this district, has commenced farming operations for the year. He states the soil is in excellent condition.

SYLVAN LAKE.—Donald McCrimmon, R.C.A.P. and Leading Seaman Lloyd Lewis of the R.C.N. were home on leave this week.

THREE HILLS.—Hugh McCarron has purchased the Royal Bank building and will convert it into a modern medical shop. Robert Stubbins is in charge of the building. J. E. McPherson, Mr. M. K. Wright and Mr. R. C. Colburn spent Sunday in Ponoka with Mr. and Mrs. Robert Parker. Mrs. Ben Bay of the R.C.A.P., a district nurse, is making and preparing in his court, it was learned here recently.

GLENDON.—Mrs. Glen Kight left for Vancouver recently with her two sons. She will join her husband, Mr. Kight, who is stationed at this point. Police officers were elected at the annual meeting of the Community club last night. President, L. C. Kight, vice-president, Mrs. A. A. Erickson, secretary-treasurer, directors: Mrs. L. C. Kight, R. F. Kottler, Mrs. M. G. Neimick, Mrs. Cecil Smith and Mr. E. D. Kight.

FAIRVIEW.—Called to the colors as an officer in the Canadian Dental Corps affiliated with the R.C.A.P. Dr. E. Wilkinson, local dentist, left the district Tuesday.

SMOKE LAKE.—Most successful patriotic campaign in its history was held here recently when a large crowd in the National hall donated to the War Service Fund. A committee of 16 is continuing the drive and it is expected that \$10,000 will be collected before the end of the week.

LUSCAR.—Gunner Jack Chisholm, C.A.S.F., is visiting his wife and family here. Before enlistment Mr. Chisholm was employed with Hucker Collieries for a long period of years.

KILLAM.—Dr. E. M. Wilder, pediatric doctor here for more than a year, has received a call to report for war service shortly. W. Smith and daughter, Mrs. Laura Nelson, left Monday for a visit to the Pacific coast. Village council reduced the millrate for 1941 from 20 to 18 mills. It was also decided to plant more trees in the district.

ATHABASCA

Uphaval At Athabasca As River Is Out

First upholders of the Athabasca river took place Tuesday afternoon when the ice moved over the bridge. Tickets for a week-end had only been put on sale Monday and no game had been deposited.

What was a once tragically fatal river, during the last week of the year, was relieved Sunday by water and was relieved Sunday by water and was relieved Sunday by water. The ice was not damaged.

"Trade winds" are winds blowing continually from the thermal equator and deflected eastward by rotation of the earth.

PREMIER KING DELAYS VISIT TO ROOSEVELT

Balkan War News Keeps Prime Minister In Ottawa

OTTAWA, April 10.—(CP)—Prime Minister Mackenzie King told a press conference late Wednesday that anxiety of the news from the Balkans had compelled him to delay his planned visit to the United States. He said he would leave tomorrow afternoon to visit President Roosevelt.

It is expected he will leave tomorrow afternoon to visit President Roosevelt. He said he would leave tomorrow afternoon to visit President Roosevelt. He said he would leave tomorrow afternoon to visit President Roosevelt.

MEET AT WARM SPRINGS

King and Roosevelt will meet at Warm Springs, which is located in the state of Georgia. The meeting is expected to last several days.

If for any reason the President does not go to Warm Springs, King will go to Washington, D.C., to meet him. King will be accompanied by his wife and children.

We are at a great crisis," he said. "Events may move rapidly, not only in the Balkans but in other parts of the world. I think that the people of Canada will understand the situation and will be prepared to do their duty."

The Prime Minister would not disclose what subjects would be discussed during the visit.

It is believed there will be discussions on matters relating to Canada arising from the situation in Europe. The visit is expected to last several days.

INVITED BY PRESIDENT

As the result of the visit, King visited Mr. Roosevelt at Warm Springs. A statement prepared for release before the change in plans at prime minister said:

Some weeks ago the President invited me to visit him at Warm Springs. I was delighted to accept the invitation and to pay him a visit at Warm Springs. I was delighted to accept the invitation and to pay him a visit at Warm Springs.

I need not say how greatly I am looking forward to the visit and the opportunities it will afford of talking over with the President matters of mutual interest and concern.

I am unable to say on what day the President may find it possible to leave Washington for the south. I expect to be in the south in a few days. I expect to be in the south in a few days.

There are persons whom I wish to see and some matters in which I have been awaiting an opportunity to give attention in the United States. I am looking forward to the visit and the opportunities it will afford of talking over with the President matters of mutual interest and concern.

I am not making any public statements in the United States, and it will, I am sure, not be misunderstood, if I am reluctant to make any public statements or give any interviews while visiting a neighboring country which has its own problems to consider at this time.

I will be returning to Ottawa as soon as possible after my visit with the President.

Queen Marie In Broadcast Sends People Message

LONDON, April 10.—(CP)—Queen Marie of Yugoslavia, a B.B.C. broadcast, appealed to recall the last words of her deceased husband, King Alexander: "Persevere, Yugoslavia, I am with you."

She paid tribute to the heroic fighting of Yugoslavia and her ally and added in Serbian-Croat: "I myself send you this message: Keep Yugoslavia united. May your dignity and have full confidence in your King and his heroic army."

Queen Marie is the mother of young King Peter II.

Chileans Answer Danish Protest Of Ship Seizure

SANTIAGO, Chile, April 10.—(AP)—The Chilean government said it would answer the Danish protest of a Chilean ship seized by the Danish navy within five days as a neutral American vessel.

Replied to the Danish protest, a Chilean ship seized by the Danish navy within five days as a neutral American vessel. Replied to the Danish protest, a Chilean ship seized by the Danish navy within five days as a neutral American vessel.

War Services Total Now \$52,311 For Edmonton As Fund Climbs Nearer Goal

Edmonton's Canadian War Services fund rose to the \$52,311 total Wednesday on the road to a goal of \$75,000, and it is anticipated that by the week-end the city's quota will be exceeded.

Officials of the fund are confident that the quota will be surpassed and they are fortified in this opinion by the fact that only 3,392 of Edmontonians have yet been listed as subscribers. They state that when the result of the canvass is known this number will be increased considerably as reports to the central office would indicate that only where it is physically impossible to subscribe are the canvassers meeting with refusal of support.

Contributions received at the central office Wednesday were included: Canadian Bedding Company Ltd., \$180; J. H. Samuels Co. Ltd., \$100; Edmonton Motor Ltd. The staff contributions of the latter firm will be reported later.

Canvassers amongst city doctors are progressing rapidly and Wednesday Dr. D. H. McLeod reported that 100 doctors totalling \$47,030 had been received from 30 medical men. Re-quests for more canvassers amongst Edmonton's dentists, Dr. Scott Hamilton turned in \$37,500. The canvass is still continuing amongst this group.

Chief Winner
ALICE HESLOP, whose Hereford beef calf won the best calf feeding competition at the Edmonton Exhibition Association's spring show, Miss Heslop a newcomer to the show ring, resides at Phillips, Alta., and reaped a rich harvest in cups, trophies and cash as a result of her victory.

Police Issue Warning About Theft Of Bikes

Reaching near epidemic proportions, the wave of bicycle thefts continued here with three reports to city police of thefts and attempts at theft Thursday.

Police receive their warning to owners of bikes to keep their machines locked at all times when not in use.

Paul Woodrow, 1104 81st street, reported his bike stolen from the north side public library Wednesday, and C. Carlyle, 1024 112nd street, complained of his bicycle being stolen from outside the Blawie Institute Hall, 96 street and 103A street.

Mrs. C. J. Griffith, 902 115 street, told police some one came up on the veranda of the house and attempted to remove the front wheel of a bicycle during the night, but failed to complete the job.

JOLLIFFE HERE ON WAY NORTH TO MAKE SURVEY

Dr. A. W. Joliffe, of the geological surveys branch of the department of mines and resources, Ottawa, arrived in Edmonton Thursday morning on his way north to conduct survey work.

He will visit the Glimour Lake and Yellowknife areas and will assist in development of uranium and gold occurrences known to exist.

He will take in a small party and his assistant will be R. K. (Bob) Polunin of Edmonton, who will be left in charge when J. Joliffe returns to Ottawa in August.

Mrs. Polunin was to have received her doctorate from the University of Minnesota this spring but was released to assist in this northern work.

The Lions' Club held its regular business luncheon at the Macdonald hotel at noon Thursday.

Two Proud Champions At Show

Here are two proud champions who won top honors in horse judging at the Edmonton Spring Show this week. Both are from the K. I. Clarke stable, Namsud Above is Marquis Don, five-year-old stallion, and grand champion in the Belgian stallion class. He won the stallion class for horses over three years old against the stiffest kind of competition, beating out the best that Alberta breeders could muster, and turning back a determined bid from exhibitors of the breed in Saskatchewan. Below is Branne of Amisk, nine-year-old stallion mare. She won the female champion in the Belgian class. She is by Karl of Amisk, out of Romaine of Amisk, and was voted one of the finest Belgians ever bred in Canada. She was shown at the show in recent years. Mr. Clarke has only been exhibiting at the spring show for about two years, last year being the first time animals from his farm figured in the awards. He has spared no effort in building up a strong line of pure-bred animals at his Namsud farm.

British Laud Dominion Forces For Voluntary Service In War

"The British people," he said, "are standing up under the terrific bombardment by enemy planes in villages, towns and cities alike, with a courage that is beyond all praise and with a loyalty that is the admiration of all who have been privileged to see or share their life during these fearful months."

He paid special tribute to the King and Queen, who are giving the encouragement and comfort to the people suffering in the bombed areas.

Empire soldiers, sailors and airmen, he said, have been received

Special Church Services To Be Held In City On Good Friday

Special services in churches and cathedrals the world over on Good Friday will once again testify to the true meaning of the Resurrection, and man's faith in his God and a life immortal.

The congregations of Knox, Scotch Baptist and Metropolitan churches will be given the "Three Hours Meditation on the Cross" and at 8 p.m. The Story of the Crucifixion will be told in picture and song.

Other religious events that will be a feature of the day will be "A Pageant of Easter," beginning at 10 p.m. at Norwood United church, on 11 a.m. service at First Presbyterian church and a service

at 11 a.m. at the Anglican church.

At 11 a.m. at the Anglican church, Rev. Canon G. P. Grever, rector of the church, will conduct the regular Good Friday service at 11 a.m. when the congregation will be given the "Three Hours Meditation on the Cross" and at 8 p.m. The Story of the Crucifixion will be told in picture and song.

Getting Around With STAN ROSS

ACCORDING to Mrs. Wilk, son, wife of Lieut. Col. E. B. Wilk, now overseas in command of the Edmonton Regiment, the ladies carrying on the door to door canvass for the local War Charities drive are being received royally wherever they call.

In fact they're being continually invited in for tea as they make their rounds. These progressive tea parties may be doing wonders for the collection figures, but if they keep going much longer they are liable to do things to the collectors' figures as well.

Last night the big Gymkhana was successfully held in the Edmonton arena with the usual assortment of horsemanship, dressage, jumping, and polo.

It was a real "bank" night, they're badly mistaken. It happens to be the correct name for a show of this type, even if it is harder to spell.

The name Gymkhana originated with the British military forces in India.

April 28, according to a letter received at the office of the Edmonton Chamber of Commerce, officials here state that Edmonton residents who might be visiting Washington at that time would be able to register with the local Chamber.

Arrangements are being made for the 122nd anniversary of the birth of the independent Order of Oddfellows on May 11, 1941.

Dr. W. Maxwell, 1000 7th avenue, has left for eastern Canada to attend to the affairs of the Canadian Red Cross Society.

The future of amateur baseball will be discussed at a meeting to be held at the city council's office on Monday at 9 p.m. at which time the report of the Red Cross will be discussed.

At 11 a.m. at the Anglican church, Rev. Canon G. P. Grever, rector of the church, will conduct the regular Good Friday service at 11 a.m. when the congregation will be given the "Three Hours Meditation on the Cross" and at 8 p.m. The Story of the Crucifixion will be told in picture and song.

TOURIST TRADE CONFERENCE TO START FRIDAY

More Than 100 Delegates To Discuss Phases Of Industry

Many phases of the tourist trade and industry will be discussed at a conference called by the Macdonald hotel Friday morning.

Trade and industry will be represented by delegates from all over the country, and the conference will last for two days.

Premier William Abernethy will open the conference by addressing the delegates, while Mayor J. W. Fry will bring greetings on behalf of the city.

The conference will discuss: 1. A study of the tourist trade in Alberta. 2. Improvement of service to visiting tourists. 3. Coordination of information between the various tourist agencies.

Among the speakers will be Premier William Abernethy, Mayor J. W. Fry, and other officials of the city.

Brilliant Horsemanship Features City Gymkhana Staged By Saddle Clubs

Brilliant riding and jumping, spills and exciting gymnastics events thrilled approximately 2,500 spectators at the horse show staged by the Edmonton and Rivercrest Saddle clubs at the arena Wednesday evening.

The function was in conjunction with the Edmonton Exhibition Association's spring show and proceeds will be devoted to war services.

For the second year in succession Heart's Thrill, owned by the Rivercrest stables, carried off the championship of the show. This splendid bay mare won the W. E. Frybe challenge cup in a sparkling performance over the six stiff obstacles, never putting a foot wrong. She was given a splendid ride by Mrs. D. K. Yerxa, Calgary, formerly Miss Betty Wilkins, Edmonton.

Mrs. W. G. Gove, formerly Miss Kay Baxter, took a steady fall in the event when she came second in the W. E. Frybe challenge cup. She was given a splendid ride by Mrs. D. K. Yerxa, Calgary, formerly Miss Betty Wilkins, Edmonton.

Mrs. W. G. Gove, formerly Miss Kay Baxter, took a steady fall in the event when she came second in the W. E. Frybe challenge cup. She was given a splendid ride by Mrs. D. K. Yerxa, Calgary, formerly Miss Betty Wilkins, Edmonton.

LOCAL HORSE IS CHAMPION THOROUGHBRED

Weiller and Williams' Wonder Bar Wins Spring Show Title

Edmonton race and breeders divided the spoils to the three-oughted class at the Edmonton Association's spring show at the Wonder Bar, owned by Weiller and Williams carried off the championship, and also the special donated by the Hunters' Improvement and National Light Horse Breeding Society special.

—Photo by Mrs. Keno Stuebe

J. S. Glover, with a yearling foal by Amsterdam, took first prize in the yearling foal year class and also gained the red ribbon with his yearling mare more than any other in the class for mare foaled after 1922.

The R. J. Spore's Challenge Trophy for the best progeny of a registered thoroughbred stallion went to Golden Bird, of the Breckinridge Stables, Edmonton.

Lady Blenheim, a Craigcower-Labell, Elbertly filly, was the most championship filly in the yearling class by means Weiller and Williams.

SADDLE CLASSES
The high and heavy draught horse classes two old opponents, J. Hagerty of Old Morris, Burns and Byrth shared honors.

In the saddle horse classes Mrs. V. A. Bay captured the championship more or plying class with Rucke Bay, and also took the open class with the same horse. During the evening performance at the arena she was presented with the Hudson's Bay Challenge Cup for the novice saddle horse exhibited at the show.

Little Alice Brown, won the first award in the best girl rider class with New Start placing second, the junior jumping class Molly Taylor took first prize and Johnny Versada second.

The following are the complete results:

THOROUGHBREDS
Yearlings, foaled after Jan. 1, 1922 and before Jan. 1, 1923: 1. Wonder Bar, Weiller and Williams, Edmonton; 2. Lady Blenheim, Elbertly, Edmonton; 3. Golden Bird, Breckinridge Stables, Edmonton; 4. J. S. Glover, Edmonton; 5. J. Hagerty, Old Morris, Burns and Byrth, Edmonton; 6. J. Hagerty, Old Morris, Burns and Byrth, Edmonton; 7. J. Hagerty, Old Morris, Burns and Byrth, Edmonton; 8. J. Hagerty, Old Morris, Burns and Byrth, Edmonton; 9. J. Hagerty, Old Morris, Burns and Byrth, Edmonton; 10. J. Hagerty, Old Morris, Burns and Byrth, Edmonton.

Yearlings, foaled after Jan. 1, 1922 and before Jan. 1, 1923: 1. Wonder Bar, Weiller and Williams, Edmonton; 2. Lady Blenheim, Elbertly, Edmonton; 3. Golden Bird, Breckinridge Stables, Edmonton; 4. J. S. Glover, Edmonton; 5. J. Hagerty, Old Morris, Burns and Byrth, Edmonton; 6. J. Hagerty, Old Morris, Burns and Byrth, Edmonton; 7. J. Hagerty, Old Morris, Burns and Byrth, Edmonton; 8. J. Makes Clean Sweep

E. J. CLARKE, Edmonton, business manager and director of Edmonton Exhibition Association, whose she accumulated the title dividend, approximately \$400 for her fall and winter work in addition to numerous prizes, cups, trophies and medals.

She will receive approximately \$175 for her prize winning Hergel bull, purchased by the King Edward hotel at 25 cents a pound, in addition to this marvellous sale she received numerous cash and merchandise prizes presented by city merchants, breeder associations and individuals.

HEAVY WINNER
Dora Kohlhaas, Hardisty, was also a heavy winner in the show, and a very substantial return on her food operations. She took second place in the beef class.

Both girls, however, were not as much impressed with the monetary gain achieved, but expressed their pride in their own performance on top in the competition. They were not a little saddened at having to part with their calves.

The following are the complete awards for the show:

JUNIOR BREEDER SPECIALS
Edmonton Exhibition challenge trophy, first prize, won by Dora Kohlhaas, Hardisty.

Edmonton Exhibition challenge trophy, best beef, won by Alice Heppel, Hardisty.

Prince of Wales championship trophy, best calf, won by Alice Heppel, Hardisty.

Edmonton Exhibition trophy, best steer, won by Dora Kohlhaas, Hardisty.

Edmonton Exhibition trophy, best cow, won by Dora Kohlhaas, Hardisty.

Edmonton Exhibition trophy, best bull, won by Dora Kohlhaas, Hardisty.

Edmonton Exhibition trophy, best heifer, won by Dora Kohlhaas, Hardisty.

Edmonton Exhibition trophy, best mare, won by Dora Kohlhaas, Hardisty.

Edmonton Exhibition trophy, best gelding, won by Dora Kohlhaas, Hardisty.

Edmonton Exhibition trophy, best yearling, won by Dora Kohlhaas, Hardisty.

Edmonton Exhibition trophy, best foal, won by Dora Kohlhaas, Hardisty.

Edmonton Exhibition trophy, best colt, won by Dora Kohlhaas, Hardisty.

Edmonton Exhibition trophy, best filly, won by Dora Kohlhaas, Hardisty.

Edmonton Exhibition trophy, best mare, won by Dora Kohlhaas, Hardisty.

Edmonton Exhibition trophy, best gelding, won by Dora Kohlhaas, Hardisty.

Edmonton Exhibition trophy, best yearling, won by Dora Kohlhaas, Hardisty.

Edmonton Exhibition trophy, best foal, won by Dora Kohlhaas, Hardisty.

Edmonton Exhibition trophy, best colt, won by Dora Kohlhaas, Hardisty.

Edmonton Exhibition trophy, best filly, won by Dora Kohlhaas, Hardisty.

Edmonton Exhibition trophy, best mare, won by Dora Kohlhaas, Hardisty.

Edmonton Exhibition trophy, best gelding, won by Dora Kohlhaas, Hardisty.

Edmonton Exhibition trophy, best yearling, won by Dora Kohlhaas, Hardisty.

Edmonton Exhibition trophy, best foal, won by Dora Kohlhaas, Hardisty.

GIRL WINNER OF \$400 AT SPRING SHOW

Alice Heppel Also Takes Trophies In Calf Feeding Contest

When little Alice Heppel, of Phillips, won the children's calf feeding competition at the Edmonton Exhibition Association's show she accumulated the title dividend, approximately \$400 for her fall and winter work in addition to numerous prizes, cups, trophies and medals.

She will receive approximately \$175 for her prize winning Hergel bull, purchased by the King Edward hotel at 25 cents a pound, in addition to this marvellous sale she received numerous cash and merchandise prizes presented by city merchants, breeder associations and individuals.

HEAVY WINNER
Dora Kohlhaas, Hardisty, was also a heavy winner in the show, and a very substantial return on her food operations. She took second place in the beef class.

Both girls, however, were not as much impressed with the monetary gain achieved, but expressed their pride in their own performance on top in the competition. They were not a little saddened at having to part with their calves.

The following are the complete awards for the show:

JUNIOR BREEDER SPECIALS
Edmonton Exhibition challenge trophy, first prize, won by Dora Kohlhaas, Hardisty.

Edmonton Exhibition challenge trophy, best beef, won by Alice Heppel, Hardisty.

Prince of Wales championship trophy, best calf, won by Alice Heppel, Hardisty.

BEEF SALE IS GIVEN SUPPORT BY CITY FIRMS

Local business organizations gave splendid support to the auction sale of commercial cattle and children's calves held at the conclusion of the Edmonton spring show Wednesday afternoon.

The grand champion beef animal of the show—a very fine Aberdeen Angus—was sold by Roy Ballhorn of Wetaskiwin, was bought by the Safeway Stores at 45¢ per pound.

The reserve champion—a splendid Hereford—was sold by Roy Ballhorn of Phillips, and winner of the first prize in the children's calf class, was bought by the King Edward hotel at 25¢ per pound.

The firm of Weiller & Williams were the heaviest buyers, taking a total of 42 head. The Safeway Stores bought 41 head and the Oscar Brown Commission Company took 36 head.

Other buyers included P. Barna & Company with eight head, Gamers with three head, the Royal George Cafe with three, the King Edward hotel bid in five head, and other purchasers included the Claude Campbell Commission Company, the Macdonald hotel, Swift Canadian Company, Canada Packers Ltd. and James Paul.

Ryan McDowell, of St. Albert, sold his first prize winning steer in the class for over 1,100 pounds for 15¢ per pound in the Safeway Stores. Other prices ranged from 13¢ per pound for the second prize calf in the children's class, down.
